

Member of the Board of Directors

Nicole Westman-Jones

I am looking to gain some experience by being a part of a non-profit board. Calgary Sexual Health inspires me with its longevity, its help to improve gender equality and the experience and knowledge of not only the employees within this organization but on the board of directors.

Nicole Westman-Jones has grown up in the Real Estate industry and for the most part her experience has been at Jayman BUILT (Calgary based new home builder). She has developed diverse experience in the real estate industry, working in new home sales, marketing and land development. She holds a Business Degree with a Major in Management from Griffith University (Australia), and a Marketing Diploma from SAIT. Currently Nicole is on the Jayman BUILT board of directors and is looking to expand her knowledge on being an active board member on the Calgary Sexual Health board.

Outside of Nicole day-to-day job she has an interest in interior design, traveling and is always looking to improve herself and her knowledge.
